

AxIAS 975ICE

In Ceiling Camera Enclosure

The AxIAS 975ICE is a special tamper resistant camera enclosure designed for "In-Ceiling" application where a low profile housing is required. Its wedge shape design tapering from 2-13/16 inch height (from lowest point of housing to ceiling) at the front of the housing to 1/4 inch height at the rear provides a low profile while allowing easy access for camera installation and maintenance. The AxIAS 975ICE is constructed of heavy duty 16-gauge cold rolled steel with a powder coated beige color finish on the "exposed" lower portion of the housing and a semi-flat black finish on the upper portion of the housing and conforms to Fire Code requirements for installation in open plenum ceilings.

Specifications

Bottom Portion Base: (Ceiling surface) OD 12"L x 4-3/4"W. ID 9-1/2"L x 4-5/8"W x 3-5/16"H. Front Lens Area (1/4" thick Lexan) 2-15/16"H x 2-3/4"W. Bottom Portion tapers from 2-13/16" height (lowest point to ceiling surface) at front of housing to 1/4" at rear of housing.
