Ready to go

Camera Packages

Panasonic makes it easier and more economical to select and install CCTV cameras.

Each Ready-To-Go Camera Package comes complete with camera, lens, and housing

With the new Ready-to-Go Camera Packages, Panasonic dramatically simplifies and streamlines your installations. Each package comes as a complete, ready-to-install unit: a camera body, lens, and appropriate housing - fully assembled AND pre-tested for you. All you need to do is open the box, mount the camera, and connect your video and power. It's that simple, and that fast.

More choice, more flexibility

Panasonic offers you a wide range of camera, lens, and housing combinations to let you satisfy far more applications and environments. With Ready-to-Go, you're not limited to just a few 'generic' combinations. You have your choice of indoor and outdoor packages, color and black and white, and a broad array of varifocal lenses.

Simpler to buy, easier to manage

Ready-to-Go Camera Packages make it much easier to order cameras for a job. Instead of managing dozens (or even hundreds) of separate components, just select the Ready-to-Go packages you need, and each unit arrives in one box, under one model number. It means fewer parts and pieces to keep track of, and less potential for errors and delays.

Less labor, faster installations

Since each package comes ready to install right out of the box, you won't waste time and labor matching up parts and assembling components. Just unpack Ready-to-Go and mount. You will cut your installation schedule significantly, while lowering your labor costs at the same time.

Pre-tested, too

Each Panasonic Ready-to-Go Camera Package is expertly assembled and tested for you, including internal connections. Before it's shipped, you are assured that your Ready-to-Go package is in working order and ready to install.

Pure Panasonic quality

Every component in every Ready-to-Go package delivers the exact same quality and reliability you expect from Panasonic. All Ready-to-Go products are backed by Panasonic Customer Service and Technical Support.

A Three-Year Limited Warranty

All Panasonic Ready-to-Go Camera Packages are backed by a three-year Panasonic limited warranty, which includes all components of the package.
